

[TODAY'S DATE]

Dear [Principal Gonzalez],

1. Introduction

We have noticed that activities during rainy-day lunches are a problem in our school. We have some ideas about how to make rainy-day lunches better. We think some possible solutions are to have the school purchase board games for us to play after we eat our lunches. Another idea is to have fun games like pickle ball in the MPR. Finally, another idea would be for us to have a choice on a good movie to watch. We would like to share with you a few reasons why we should make this change.

2. Reasons

First, board games are a good lunchtime activity because we can use our brains.

Also, playing a safe and active indoor game would keep us from getting so restless in class. Finally, movies can be really fun and sometimes you just need to kick back, relax, and have some fun with your buddies at lunch.

3. Conclusion

We love and care a lot about our activities during lunch so please consider our requests.

Sincerely,

[TEACHER'S NAME] Class
